

Toronto CMOS Centre 2019 Science Fair Awards

The **2019 Toronto Science Fair** was held at University of Toronto Scarborough on April 5 and April 6, 2019. CMOS awarded a prize of \$150 to the student with the best project related to meteorology and related disciplines. The winner was Gabrielle Walji, a Grade 8 student, for her project "*Global Warming's Evil Twin*". A second place prize of \$75 was given to Krish Dogra, a Grade 10 student, for his project "*How Acidic is Lake Ontario*". The awards were presented by Steve Jacobs, a Toronto CMOS Centre Executive.

The **2019 York Region Science and Technology Fair** took place at York University on April 12 and April 13, 2019. CMOS awarded a prize of \$150 to the student with the best project related to meteorology and related disciplines. The winner of the 2019 CMOS award was Fatima Saadatfard, a Grade 8 student, for her project "*Make Every Drop of Water Count*". The award was presented to Fatima by Oscar Koren, a Toronto CMOS Centre Executive.
